

Visornets will participate as an exhibitor with its own stand in the 2024 edition of SICUR, the International Security Trade Fair.

SICUR is the great international reference in Spain for Security. Every two years it brings together companies, associations, professionals and users of global security in the public and private spheres in Madrid. For this edition, the organizers of the trade fair have prepared a [rich program of activities](#) to learn about the avant-garde in terms of security.

As an exhibitor at SICUR, Visornets will present to attendees the innovations in its product catalog for 2024. These innovations include the [BesSystem](#) forging edge protection system and the [U-type adjustable arm system](#).

The fair will take place at IFEMA Madrid from February 27 to March 1, 2024. And it will be in pavilion number 4, specifically at stand 4D14, where attendees will be able to learn first-hand about Visornets' innovations for this new year. .

You can now get your professional [passes for SICUR](#) on the fair's website.
