

Visornets installs 35,000 m² of safety nets at the Al-Rayyan stadium in
Qatar

Visor Fall Arrest Nets has had the privilege of being part of one of the most iconic projects in the international sports scene: the supply of **safety nets** for the **Al-Rayyan football stadium** in Qatar, **host country of the 2022 World Cup** and the epicenter of some of the most modern sports venues in the world.

Height Safety: Nets for Roofs

For this project, **Visornets** used **“S” type safety nets** according to the **EN 1263-1** standard, specific for fall protection in work environments.

Visornets manufactured and supplied a total of 350 **S type nets** model **SB1Q45** for the stadium, each 10×10 meters, which covered a total area of about 35,000 m² in the roof zones of the stadium.

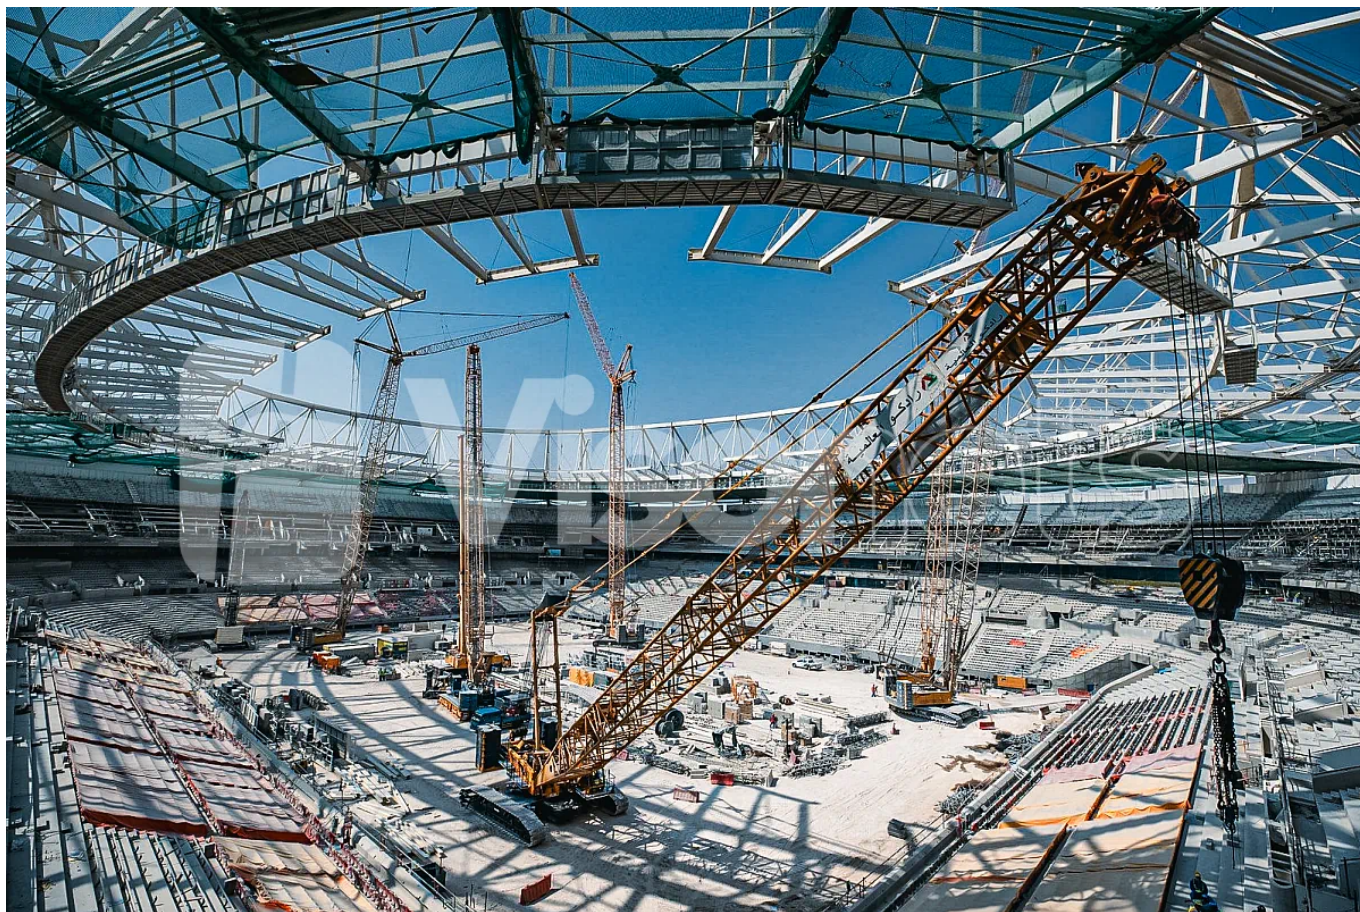

Visornets, a Spanish Brand with International Reach

At **Visornets**, we design, manufacture, and certify **security nets** that are exported to over 30 countries. Our participation in international projects like this stadium in Qatar reaffirms our responsiveness, commitment to quality, and technical expertise.

- Certified under the European standard EN 1263-1/2
- More than 10 years of experience in **collective protection systems**
- Presence in large civil, sports, and industrial projects
- Own production network and quality control
- 100% Spanish manufacturing

Qatar: Innovation, Architecture, and Safety

The stadiums in Qatar have marked a before and after in architectural design, **safety**, and sustainability.

Visornets has contributed with safe and tailored solutions to these standards, enabling technicians and workers to work confidently at great heights.

We continue building **safety**, now also at the heights of global sports.
